

NE 24 - Homework #6
Chris Lamb
3 April, 2017

Python Testing!!

1. Submit a file called *test_mean.py* that runs tests for the mean function.

Answer: Look in the folder where this file is found for the *test_mean.py* file and then for a screenshot of the failed test case, refer to here: <http://i.imgur.com/YrD1g6c.png>

2. Submit a second file called *mean.py* that fixes the failed test from the previous question and allows all the previous tests for the mean to work without altering the existing tests.

Answer: Look in the folder where this file is found for the *mean.py* file and then for a screenshot of the newly passed test case, refer to here: <http://i.imgur.com/2myqt6a.png>
